

## Key Points for Plan

- We **have** the power to prevent sexual abuse.
- We **must** know the warning signs of a potential perpetrator in order to help protect our children, youth and individuals at risk.
- We **must** carefully screen and control who has access to our children, youth and individuals at risk.
- We **can** help protect those we serve by closely monitoring all ministries and programs.
- We **must** be aware of what is happening in the lives of our own children, youth and individuals at risk.
- We **must** communicate when we have concerns about inappropriate behavior or suspected abuse.
- We **can** create a safer world for all God's people when we work together as a caring Catholic Community.
